Smithsonian Year 1987

Chronology

The following is a representative selection of Smithsonian events and milestones during the fiscal year 1986-1987.

October

Exhibition: "Russia, The Land, The People: Russian Painting, 1850-1910," an exhibition of artworks from the collections of the State Tretyakov Gallery, Moscow, and the State Russian Museum, Leningrad, opened at the Renwick Gallery. Organized by the Smithsonian Institution Traveling Exhibition Service, this exhibition marked the first exchange stemming from the November 1985 cultural agreement between the United States and the Soviet Union.

October

Conservation: The Smithsonian Tropical Research Institute was named as a member of the newly installed board of Panama City's Metropolitan Nature Park.

October

Office Move: The Smithsonian Institution Traveling Exhibition Service moved its offices from the Arts and Industries Building to the S. Dillon Ripley Center, located on the third level of the new museum complex. New facilities include the International Gallery and a spacious room for workshops.

October

Outreach: Dr. Joalyn Archambault joined the National Museum of Natural History's Department of Anthropology as director of the museum's new Native American Program, part of an interbureau activity developed with the National Museum of American History.

October

Publication: "A Space Odyssey," a wall calendar published by Universe Books, New York, featured astronomical images produced by Harvard-Smithsonian Center for Astrophysics scientists using the HEAO-2 (Einstein) X-ray Satellite.

October 5

Milestone: The Dibner Library, Special Collections Branch of the Smithsonian Institution Libraries, celebrated its tenth anniversary with "Nota Bene," an exhibition featuring twenty-nine rare annotated books on the history of science and technology. The opening was attended by the benefactor, Dr. Bern Dibner, and his wife, Barbara Druss Dibner.

October 6-10

Course: As part of its conservation training program, the Conservation Analytical Laboratory offered "Metallography of Ancient Metals," a specialist course taught by Dr. David Scott of the Institute of Archaeology, University of London.

October 10

Exhibits: Two aircraft representing the pioneer days of aviation were placed on display in the National Air and Space Museum's Early Flight Gallery--the 1911 *Ecker Flying Boat*, a three-in-one aircraft equipped to take off from land or water, and the 1911 *Caproni CA 9*, Italy's first passenger-carrying aircraft and its first mass-produced military aircraft.

October 10-21

Workshop: Representatives of ten nations participated in the first international workshop on the Management of the Green Iguana, held at the Smithsonian Tropical Research Institute in Panama. The workshop was organized by the Foundation Pro-Green Iguana, in conjunction with the University of Heredia (Costa Rica) and the United States World Wildlife Fund.

October 15

Special Event: As part of an ongoing effort to strengthen ties between museums and schools across the United States, the Office of Elementary and Secondary Education offered the first of three regional workshops. In all, more than fourteen hundred teachers attended the workshops in Jackson, Michigan; Waterloo, Iowa; and Philadelphia, Pennsylvania.

October 15

Film Series: The first in a series of seven films from the Soviet Union premiered during an event organized by the Resident Associate Program. Guests at the opening night reception were Soviet Ambassador Yuri Dubinin and Elem Klimov, president of the Soviet Filmmakers Union.

October 18-19

Special Event: Nearly three hundred people attended the Sixth National Zoo Symposium for the Public. "Behind the Scenes: Animal Studies at the Zoo" presented a range of research projects conducted by zoo professionals at the park and in the field.

October 18-19

Symposium: Five hundred people attended the Archives of American Art symposium on visual arts in Southern California. The symposium attracted much media attention, and a local station of the Public Broadcasting Service expressed interest in producing a television series based on the symposium's topic and in underwriting a symposium on visual arts in Northern California.

October 22-26

Special Event: Contributing members participated in a weekend program that featured visits to selected exhibitions with museum directors and curators.

November

Publication: The first issue of *Rittenhouse: The Quarterly Journal of the American Scientific Instrument Enterprise* was published by the Department of the History of Science and Technology at the National Museum of American History.

November

Publication: *Portraits of Nature: Paintings by Robert Bateman* by Dr. Stanwyn G. Shetler, assistant director for programs at the National Museum of Natural History, was published by the Smithsonian Institution Press and Viking Penguin Books, New York. The book was produced for the museum's 1987 exhibition of Bateman's works.

November

Milestone: Researchers at the Tropical Biology Library at the Smithsonian Tropical Research Institute gained on-line access to the Smithsonian Institution Libraries catalogue in Washington, D.C.

November

Residencies: The semiannual, ten-day residency session of the Kellogg program for senior-level museum professionals was held at the Smithsonian. Coordinated by the the Office of Museum Programs, the residencies provide opportunities for participants from around the nation to focus on issues relating to museums as educational resources in communities.

November

International Project: The thirty-day Project on Museum Management began with a seminar at the Smithsonian. Designed for foreign museum professionals and organized by the Office of Museum Programs and U.S. Information Agency, programs were held in five cities.

November 1

Concert Series: The 20th-Century Consort gave the first of four concerts in its 1986-87 season at the Hirshhorn Museum and Sculpture Garden.

November 2

Benefit Premiere: The Washington premiere of *The Mission*, sponsored by the Resident Associate Program, was held in the National Museum of Natural History. The event, which included a reception at the Organization of American States Building, benefited the Resident Associate Program's various outreach activities.

November 3

Obituary: Smithsonian physical anthropologist J. Lawrence Angel, 71, died in Washington, D.C. During his career, Angel studied skeletal remains at key archaeological sites in Cyprus, Turkey, and the United States. He also assisted federal and local law enforcement agencies in identifying the skeletal remains of more than five hundred people, many of them murder victims.

November 3-5

Workshop: The Office of Public Affairs organized and conducted a workshop for the Office of Museum Programs on "Getting the Word Out: Museum Public Relations." The workshop was attended by thirty public information specialists from as many museums in twenty-one states, Washington, D.C., and the Virgin Islands.

November 5

Special Event: Sponsoring, Sustaining, Patron, and James Smithsonian Society Members of the Contributing Membership previewed "Berlin 1900-1933: Architecture and Design," an exhibition at the Cooper-Hewitt Museum.

November 5

Obituary: Cynthia Jaffee McCabe, 43, curator for exhibitions at the Hirshhorn Museum and Sculpture Garden suffered an apparent heart attack and died in Rio de Janeiro, where she was doing research on a proposed exhibition on contemporary Latin American art.

November 6

Special Event: Andrew, Nathaniel, Henriette, and Ann Wyeth attended the press screening of "The Wyeths: A Father And His Family," the season premiere of "Smithsonian World," at the New York headquarters of Metropolitan Life. The program was aired over the Public Broadcasting Service on November 19.

November 10-11

Exhibition: "Berlin 1900-1933: Architecture and Design" opened at the Cooper-Hewitt Museum. Organized by the museum, the exhibition was recreated in Berlin in Spring 1987 as part of the city's 750th anniversary celebration. A symposium organized by the Museum and Internationales Design Zentrum in Berlin featured prominent American and German experts in design. In addition, the Cooper-Hewitt's first bilingual publication, an exhibition catalogue of the same title, was subsequently produced.

November 13

Agreement: Smithsonian Secretary Adams and Nizar Hamdoon, the Ambassador of Iraq, signed a memorandum of understanding between the Institution and the Scientific Research Council of Iraq. The understanding provides the mechanism necessary to carry out exchanges in areas of mutual scientific interest.

November 16-17

Reception: Contributing Members residing in the Fort Worth, Texas, area were invited to a special reception following the National Associates Lecture and Seminar Program presentation, "The Golden Age of Song: American Jazz Favorites," by John Eaton. This and other similar receptions were initiated to more closely involve Contributing Members around the country with the Smithsonian.

November 17

Exhibition: "Recent Acquisitions, 1983-1986," at the Hirshhorn Museum and Sculpture Garden, displayed major works by Jean Dubuffet, Anselm Kiefer, Claes Oldenburg, Frank Stella, and others.

November 17-20

Course: E. Benner Larsen, director of the Research Center at Legre, Denmark taught "Making High Quality Electroform Replicas of Museum Objects," a conservation training course organized by the Conservation Analytical Laboratory.

November 19

Acquisition: The National Portrait Gallery acquired a daguerreotype of Jefferson Davis by an unidentified photographer. It is the earliest photographic likeness of Davis, taken on his arrival in Washington as a congressman.

November 20

Premiere: "State of the Universe" opened in the National Air and Space Museum's Einstein Planetarium. The show takes viewers on a whirlwind tour of space, exploring current ideas about the past, present, and possible future of the universe. An exhibition of the same name went on display in the planetarium lobby.

November 21

Exhibition: "Engines of Change: The American Industrial Revolution, 1790-1860" opened at the National Museum of American History. This permanent exhibition introduces some of the people, machines, new sources of power, and new ways of organizing work that were part of the nation's transformation from an agricultural economy into an industrial power.

November 21

Exhibition: "Near Eastern Art" opened at the Freer Gallery of Art. Paintings and a wide variety of objects dating from the fifth century B.C. through the eighteenth century reflected the quality and diversity of the Freer's collection of Near Eastern art.

November 21

New Chancellor: Chief Justice William H. Rehnquist was elected as the Smithsonian's sixteenth chancellor, succeeding retired Chief Justice Warren E. Burger.

December 1

New Position: Dr. Ned Rifkin, previously with the Corcoran Gallery of Art, was named to the newly created position of chief curator for exhibitions at the Hirshhorn Museum and Sculpture Garden.

December 5

Move: The National Museum of African Art began its move from its Capitol Hill location (318 A Street, N.E., Washington, D.C. 20002) to its quarters in the Smithsonian's new museum and education complex on the National Mall.

December 5-7

Milestone: The National Associates Travel Program celebrated its fifteenth annual Christmas at the Smithsonian Weekend for Smithsonian Associates. A festive dinner and tree-trimming party in the Castle highlighted the weekend program.

December 8

Special Event: The National Science Resources Center (NSRC), established in 1985 by the Smithsonian Institution and the National Academy of Sciences, moved from its temporary quarters at the National Academy of Sciences to permanent facilities in the northeast wing of the Smithsonian's Arts and Industries Building.

December 12

Special Event: The Smithsonian Women's Committee held its fifteenth annual Christmas dinner dance in the National Museum of American History. The fund-raising event had a colonial American theme, and Chief Justice Warren Burger and Mrs. Burger were guests of honor.

December 17

Name Change: The Office of Symposia and Seminars was redesignated the Office of Interdisciplinary Studies, more accurately reflecting the office's basic purpose of bringing together specialists in the sciences and humanities to address questions demanding insight from a variety of sources.

December 18

Acquisition: The National Museum of American Art acquired Eastman Johnson's painting *The Girl I Left Behind Me* (ca. 1870-75). Purchase of this major work was made possible by funds realized from the museum's recent deaccessioning program and by a special Smithsonian grant.

December 19

Exhibition: The tenth annual "Trees of Christmas" exhibition opened at the National Museum of American History.

November 22

Closing: The Smithsonian Environmental Research Center's fifty-seven year-old laboratory in Rockville, Maryland, ceased operations. Originally part of the Smithsonian Astrophysical Laboratory, the Rockville facility was created by Smithsonian Secretary Charles G. Abbot to study the influence of sunlight on the growth and development of organisms. The laboratory is credited with many important contributions to the understanding of biological responses regulated by sunlight.

November 23

Special Events: The first of five "Sunday Afternoons at the National Zoo" was held. Designed to encourage people to visit the Zoo in the winter, programs were offered once a month from November to March.

November 25

Property Sale: The Institution sold the buildings and property that had been the home of the National Museum of African Art. The Capitol Hill site was purchased for \$2.25 million by National Association for Home Care. The funds were used to offset the cost of constructing the museum's new home on the National Mall.

November 26

Acquisition: The National Portrait Gallery acquired a rare daguerreotype of Franklin Pierce. The daguerreotype is attributed to Albert Sands Southworth and Josiah Johnson Hawes, considered to be the masters of this medium.

December

Discovery: Radar observations of twelve near-Earth asteroids led a Harvard-Smithsonian Center for Astrophysics astronomer and colleagues at other institutions to suggest that members of this special class of minor planets have extremely irregular, nonconvex shapes. The observations were made with the radio telescope at Arecibo, Puerto Rico.

December

Awards: Films and video productions by the Office of Telecommunications won six Golden Eagle awards from the Council on International Non-theatrical Events. The winning productions will represent the United States in competitions abroad.

December

Workshop: An Office of Museum Programs workshop on "Collections Management and Care" was conducted in Trinidad by a team of three Smithsonian registrars and conservators.

December

Special Course: Eight students from Howard University attended a two-week course in tropical biology conducted at the Smithsonian Tropical Research Institute in Panama.

December 23

Acquisition: An important collection of 113 works of the 1930s and 1940s by American abstract artists was donated to the National Museum of American Art by Patricia and Phillip Frost of Miami Beach.

December 30

Acquisition: The National Museum of American Art acquired 378 folk art objects of the eighteenth, nineteenth, and twentieth centuries, a purchase and a major gift from Herbert Waide Hemphill, Jr., whose holdings are acknowledged to be among the finest in private hands in the United States today.

December 30

Acquisition: The National Portrait Gallery acquired a painting of Rubens Peale by Rembrandt Peale.

December 30

Temporary Closing: The Anacostia Neighborhood Museum closed at its site at 2405 Martin Luther King, Jr., Ave., Southeast, Washington, D.C. The converted movie theater had been the museum's home since its opening in 1967. The museum remained closed until May, when it reopened at its new site in Southeast Washington's historic Fort Stanton Park and was redesignated the Anacostia Museum, reflecting the national and international recognition accorded the museum's program on Afro-American history, art, and culture.

January

Conservation Program: From January through May 1987, an environmental education program was carried out in the San Blas Islands by the Smithsonian Tropical Research Institute Office of Education and Conservation. The program acquainted inhabitants of the archipelago with the institute's work and described how the results of research can be applied to daily activities and to conservation.

January

New Program: The Program in Hispanic American History was begun in the Department of Public Programs at the National Museum of American History. The program addresses critical themes of Hispanic American history, from colonial times to the contemporary struggles of Hispanics to find a place in American society.

January

Discovery: Two Harvard-Smithsonian Center for Astrophysics astronomers reported convincing evidence that one class of young variable stars may be brightening due to material from surrounding disks falling onto their surfaces. The finding suggests that such disks, which are precursors of planetary systems, may be very common features of all young stars.

January

Reorganization: The Office of Safety Programs was reorganized and renamed the Office of Environmental Management and Safety. This reorganization recognized the dramatic increase in regulatory and safety concerns, the obligations associated with environmental management and safety, and the continuing importance of this work inside and outside the Institution.

January

Film: *From Reliable Sources*, a half-hour film produced to support the fund-raising efforts of the Archives of American Art, was completed. Produced by the Office of Telecommunications, the film depicts the role of the Archives in documenting the history of American art.

January

Exhibition Video: "Field to Factory--1915 to 1940: The Urban North," a videotape created for the exhibition opening in February at the National Museum of American History, was completed by the Office of Telecommunications.

January 1

Exhibition: "*TIME*: Man of the Year" opened at the National Portrait Gallery.

January 9

Media Event: The Office of Public Affairs held a luncheon for media representatives to introduce the Smithsonian's Cultural Education Committee, recently formed to help the Institution reach underrepresented audiences.

January 11-16

Seminars: The National Associates Lecture and Seminar Program held five seminars in Washington, D.C.: "Masters of Central Italian Art," "The Art of Scientific Illustration," "American Antique Furniture," "Presidential Washington," and "Post-World War II Aviation."

January 14

Special Event: James Smithsonian Society Members were invited to a lecture by Smithsonian Secretary Adams. The lecture, "Stability versus Resilience: Urbanites, Peasants, and Nomads in Mesopotamian History," was followed by a reception at the Woodrow Wilson International Center for Scholars.

January 16

Exhibition: "Charles Lang Freer: The Man and His Gallery" opened at the Freer Gallery of Art. This small exhibition on the ground floor of the museum traced the development of the museum through photographs from the Freer Archives.

January 17

Exhibition: "Portraits of Nature: Paintings by Robert Bateman" opened at the National Museum of Natural History. This major retrospective featured more than 100 paintings by the Canadian artist, regarded as one of the world's foremost wildlife artists. The exhibition drew more than 275,000 visitors during its four-month run and was a major factor in the museum's record-breaking attendance in early 1987.

January 19

Special Event: To commemorate the birthday of Martin Luther King, Jr., the Office of the Committee for a Wider Audience and the Office of the Assistant Secretary for Public Service hosted a reception to introduce the newly formed Cultural Education Committee.

January 24

Exhibition: "Like and Unlike: Caricature Portraits by Henry Major and Herman Perlman" opened at the National Portrait Gallery.

January 30

Exhibition: "Modern American Realism: The Sara Roby Foundation Collection" opened at the National Museum of American Art. This major exhibition included 95 of the 174 paintings, sculptures, and drawings, from the 1920s to the present, given to the museum in 1984 by the late Sara Roby.

February

Black History Month: Former New York Congresswoman Shirley Chisholm discussed "Afro-Americans and the Constitution" as the keynote speaker for an Institutionwide celebration that included films, concerts, lectures, and tours. Among the many special programs were a two-day conference on African-American lifestyles during the first years of the republic; a lecture by Gail Lumet Buckley, daughter of Lena Horne; and performances of jazz, blues, tap, and social dance. "Field to Factory: Afro-American Migration, 1915-1940," a major exhibition that examines the mass movement of black Americans from the rural South to the urban North, opened February 5 at the National Museum of American History.

February

Training and Support: Members of the Conservation Analytical Laboratory provided on-site assistance and training to workers at the important archaeological excavation under way at Harappa, Pakistan.

February

Conservation: The Smithsonian Tropical Research Institute was named to the local committee to organize the 1992 World National Parks Congress, which will be held in Panama.

February

Appointment: Dr. Philip Ravenhill was appointed to the newly created position of chief curator at the National Museum of African Art.

February

Awards: The Society for Technical Communications, Washington, D.C., Chapter, cited Smithsonian publications and articles for excellence. Four first place awards in various categories went to the Department of Botany brochure and *The Torch* (both awarded to the Office of Public Affairs and the Smithsonian Institution Press) and two Smithsonian News Service feature stories. The Department of Botany brochure subsequently won an honorable mention award in the organization's international competition.

February 1

New Location: Smithsonian Institution Libraries opened its new National Museum of African Art Branch in the Quadrangle. It was later named the Warren M. Robbins Library, honoring the founder of the museum.

February 8

Television: National Zoological Park Director Michael Robinson showcased several zoo animals on "Capital Edition," a local, Sunday morning television program.

February 9

Acquisition: With support from the Smithsonian Institution Regents Special Acquisitions Fund, the Cooper-Hewitt Museum added a remarkable piece to other extremely rare Oriental textile works in its permanent collection--a thirteenth-century needlework figure of a bodhisattva, believed to have originated in China.

February 11

New Publication: The Office of Elementary and Secondary Education's Career Awareness Program published the first issue of its student newsletter, *The CAP-LET*. Developed and written by the staff and student volunteers, the newsletter reaches more than seven hundred program alumni, current participants, teachers, and school administrators.

February 12

Exhibition: "The Making of a Dinosaur" opened at the National Museum of Natural History. Over a span of two years, visitors will be able to monitor the progress of fossil-preparation experts as they carefully extract the bones of a dinosaur (*Coelophysis*) from a ten-ton block of siltstone and reassemble the fossilized remains of the 220-million-year-old dinosaur for display.

February 17

Grant: The Women's Committee of the Smithsonian Associates awarded a \$20,000 grant to the Visitor Information and Associates' Reception Center to support future production of "The Smithsonian Institution: Airplanes to Zoos," a video to prepare children and families for their visit to the Smithsonian.

February 17

Exhibition: "The Catalan Spirit: Gaudi and His Contemporaries" opened at the Cooper-Hewitt Museum. A reception celebrating the opening of the exhibition was held February 23 and attended by opera star Placido Domingo and other internationally known figures.

February 18

Lecture Series: The National Air and Space Museum offered the first lecture in its five-part series, "Exploring Space." The series featured well-known space scientists who examined current understanding of the origins, evolution, and structure of the universe.

February 19

Expansion: With the opening of "Nancy Graves: A Sculpture Retrospective" and the relocation of its Museum Shop, the Hirshhorn Museum and Sculpture Garden inaugurated its newly expanded Special Exhibition Galleries on the lower level and introduced its orientation theater. Visitors to the theater will view audio-visual programs on special exhibitions and a program, made possible by a grant from the J. Paul Getty Trust, on the permanent collection.

February 19-20

Conference: "A Common Agenda for History Museums" was held at the National Museum of American History. Sponsored by the Smithsonian Institution, the American Association of Museums, and the American Association for State and Local History, the conference identified many shared concerns and problems of historical organizations and history museums and developed recommendations for organizations with historical collections.

February 22

Performance: Internationally acclaimed cabaret singer Michael Feinstein made his Smithsonian debut in a performance organized by the Resident Associate Program.

February 24

New Facility: The National Demonstration Laboratory for Interactive Educational Technologies was established. The first U.S. facility to focus entirely on research and demonstration of state-of-the-art interactive video technology, the laboratory is a joint project of the Smithsonian and a consortium of public television stations.

February 25

Lecture: Ohio Senator and former astronaut John Glenn commemorated the twenty-fifth anniversary of his flight in *Friendship 7* in a program cosponsored by the Resident Associate Program and the National Air and Space Museum.

February 26

Special Event: Sponsoring, Sustaining, Patron, and James Smithsonian Society Members of the Contributing Membership participated in a special tour of "Portraits of Nature: Paintings by Robert Bateman," an exhibition at the National Museum of Natural History.

February 27

Exhibition: "Gene Davis, A Memorial Exhibition" opened at the National Museum of American Art. The eighty-four paintings and drawings by Davis, a major figure in twentieth-century American art, included the finest examples of his familiar stripe paintings, as well as a selection of his best work in lesser-known formats. Subsequent programs included workshops for children and a panel discussion with five prominent figures in the art world reviewing color painting and its continued importance.

March

Grant: The National Museum of American History received approximately \$1 million from the DuPont Company in support of "A Material World," a major exhibition, on the use man-made materials in our culture, to open in spring 1988.

March

Training: The Conservation Analytical Laboratory announced several new initiatives in its rapidly growing conservation training program. These include a graduate program in conservation science, a joint enterprise with Johns Hopkins University, and a number of Institutionwide postgraduate internships for conservators.

March

Publication: The Office of Printing and Photographic Services produced a book as a companion to its exhibition of photographs of the Vietnam Veterans Memorial, which opened at the Russell Senate Office Building in November 1986. Published by Stackpole Books of Harrisburg, Pa., *Reflections on The Wall* was well-received and, by the close of the 1987 fiscal year, was in its second printing.

March

Publication: The first general brochure for visitors to the Barro Colorado Nature Monument, which is under the custodianship of the Smithsonian Tropical Research Institute, was produced by the Office of Public Affairs. English and Spanish editions of the brochure were printed.

March

Publication: A guide to the new Nature Trail on Barro Colorado Island was completed. "A Day on Barro Colorado Island" was written by Dr. Marina Wong, ornithologist, and Jorge Ventocilla, of the Smithsonian Tropical Research Institute's Office of Education and Conservation. A Spanish version will be published in 1988.

March 5

Acquisition: A reception following a lecture on the Dibner Library honored Silvio A. Bedini, who retired after twenty-six years of service to the Institution. To mark Mr. Bedini's contributions, Smithsonian Institution Libraries purchased for its Special Collections Branch a finely illustrated volume of *Misura del tempo* (Padua: 1665) by Giuseppe, de Capriglia. *Misura del Tempo* is believed to be the first book on clocks, one of Mr. Bedini's many fields of scholarship.

March 6

Installation: For the first time since its opening in January 1972, the Renwick Gallery installed prime objects from its permanent collection--forty-four works chosen to represent all contemporary craft media. During the year, the gallery presented lectures by artists whose works are included in its collection.

March 9

Acquisition: The Office of Horticulture was given the Garden Club of America's comprehensive slide collection of notable parks and gardens.

March 12-15

Special Event: National Associates attended lectures and private tours in conjunction with the Matisse exhibit at the National Gallery of Art.

March 15

Groundbreaking: Construction began on a new dining facility at the National Air and Space Museum. Scheduled to be completed in fall 1988, the new facility will include an 800-seat, self-service cafeteria and a self-service restaurant seating 180 persons.

March 16

Milestone: At a meeting of the entire staff of the National Museum of Natural History, Director Robert S. Hoffmann summarized the results of a six-month study of the museum's organizational effectiveness and highlighted four areas where changes were recommended. The study was conducted by McKinsey and Company, Inc.

March 24

Exhibition: "Louis Sullivan: The Function of Ornament," an exhibition devoted to the work of one of America's most influential architects and organized by the Chicago Historical Society and the St. Louis Art Museum, opened at the Cooper-Hewitt Museum. Presentation in New York was made possible by a generous grant from the J. M. Kaplan Fund, Inc.

March 24

Special Event: Sustaining, Patron, and James Smithsonian Society Members of the Contributing Membership were given a special tour of "Modern American Realism: The Sara Roby Foundation," an exhibition at the National Museum of American Art.

March 25

Award: On behalf of the American Heart Association, Congressman Frank R. Wolf of Virginia presented awards to Office of Protection Services security officers Ida Chase, Willie Jones, and Kenneth Doll for administering cardio-pulmonary resuscitation under life-threatening circumstances.

March 27

Special Event: A special screening of "Voices of Latin America," a "Smithsonian World" cultural documentary, was held at Carmichael Auditorium for members of Washington's Hispanic community. The program was aired nationally over the Public Broadcasting Service on April 8.

March 30

Outreach: As part of a major effort to reach the Hispanic community, the Office of Public Affairs hired a full-time public affairs specialist, fluent in Spanish and English, to develop and carry out an appropriate media program.

April

Acquisition: The Smithsonian acquired Folkways Records, the best known publisher of commercial recordings of folk and tribal music and publisher of a historically significant collection of spoken-word recordings. The Folkways Records catalogue contains more than twenty-two hundred albums. Folkways Records was acquired from the estate of founder Moses Asch.

April

Discovery: A Harvard-Smithsonian Center for Astrophysics scientist and colleagues, working with images of Jupiter's moons returned by the Voyager spacecraft, found evidence that material from the interior of Europa may be venting through its ice-covered surface.

April

Reorganization: Responsibility for Smithsonian communications was transferred from the Office of Plant Services to the Office of Information Resource Management. Consolidation of all communications-management activities into one organization marked an important step toward full integration of the Institution's voice-, data-, and image-communications technologies.

April

Planning: On the basis of a study by the Office of Programming and Budget, several major new procedures were incorporated into the annual budget formulation process to aid budget decision-making. The procedures facilitate communication of budget information throughout the Institution and further automate entry and analysis of budget data.

April

Restoration: The second phase of the Olmsted Walk restoration was completed at the National Zoological Park. Striking red-toned, man-made stones now pave the walkway. New stone walls, niches for benches, curbs, and plantings extend from the pedestrian gate on Connecticut Avenue to the entrance area of the Education Building.

April

Grants: The Office of Fellowships and Grants announced the Webb Fellowship recipients.

April

Exhibition: In conjunction with National Science and Technology Week, the Smithsonian Institution Traveling Exhibition Service inaugurated "Diversity Endangered," a poster exhibition that addresses the loss of biological diversity on the planet. A grant from the National Science Foundation supported the development of the twenty full-color posters that make up the exhibition. A videotape to accompany the exhibition was produced by the Office of Telecommunications.

April

Research: For the International Research and Exchanges Board, the Office of Museum Programs organized a delegation of four museum specialists, including two Native Americans, to view and document for the first time American Indian collections in East Germany.

April

Collaboration: The Smithsonian Tropical Research Institute inaugurated a collaboration with the University of Panama's Museum of Invertebrates. The institute donated and identified specimens and provided support for student research projects.

April

Lectures: "Bubbles, Voids, and Bumps in Time," a series of public lectures on current theories about the origin, evolution, and ultimate fate of the universe, was presented in Boston and Washington, D.C., by the Harvard-Smithsonian Center for Astrophysics. In Boston, the series was organized with the Boston Museum of Science; in Washington, the Resident Associate Program was the cosponsor.

April 1

Anniversary: *Air & Space/Smithsonian*, the bi-monthly magazine of the National Air and Space Museum, celebrated its first anniversary.

April 1

Visit: Bernadette Chirac, wife of the premier of France, along with her guests, became the first official visitor to the Arthur M. Sackler Gallery. They were accompanied through the new museum, which was still under construction, by Dr. and Mrs. Arthur M. Sackler and Milo Beach, assistant director.

April 1-5

September 13-19

Hispanic Heritage Week: Lectures, poetry readings, craft demonstrations, exhibition tours, films, and concerts were organized by six museums and the Resident Associate Program in observance of Hispanic Heritage Week. Subjects for the many programs ranged from social issues to the night skies over Latin America--graphically presented in a planetarium show. Tours, conducted in Spanish and English, were offered by the National Museum of American Art and the Hirshhorn Museum and Sculpture Garden.

September 13

Special Event: A festschrift in honor of the late Dr. Arthur M. Sackler, primary benefactor of the Smithsonian's new museum of Asian art, was held in the lecture hall of the S. Dillon Ripley Center.

September 15

Exhibition: "Lucian Freud Paintings" began a four-city international tour with its opening at the Hirshhorn Museum and Sculpture Garden--the exhibition's only American venue. The exhibition, organized by the British Council in London, featured eighty-one paintings by the acclaimed British realist. British Ambassador Anthony Ackland hosted a dinner two days later and also attended the exhibition's preview on September 14.

September 15

Award: The Cooper-Hewitt Museum received the Big Apple Award from the New York Chapter of the National Home Fashions League at a luncheon attended by four hundred members of the press and the home fashions industry. Director Emeritus Lisa Taylor accepted the award for the museum.

September 16

Symposium: The National Museum of African Art organized a symposium, "African Art Studies: The State of the Discipline." Made possible by a grant from the Shell Companies Foundation, the symposium was one of the museum's inaugural events.

September 16

Lecture: In a Resident Associate Program lecture, author Toni Morrison presented readings from her recently published novel, *Beloved*. The lecture was followed by a book-signing reception.

September 17

Award: Cooper-Hewitt Museum Director Emeritus Lisa Taylor was presented the Henry Medal by Secretary Adams at a reception in his home. Taylor is the twentieth recipient of the award, named in honor of the first Secretary of the Institution.

September 17

Award: The National Zoological Park awarded a silver medal to Sir David Attenborough for his outstanding service to zoological science and conservation. Three hundred people attended the ceremony.

September 18

Benefit: The Junior Committee of the Cooper-Hewitt Museum held its first fall fundraising event--a black-tie ball organized around the theme of the exhibition "Art Nouveau Bing: The Paris Style 1900." More than eight hundred people attended the event.

September 22

Gift: The Gold Rush, one of the fastest human-powered land vehicles, was presented to the National Museum of American History. In May 1986, the Gold Rush reached a record-setting speed of 65.48 miles per hour on a paved highway in the Sierra Nevada mountains.

September 22-23

Special Event: The Office of the Committee for a Wider Audience hosted two receptions to introduce the Institution's new museum complex: the first for members of local minority communities and the second for five hundred teachers from the Washington metropolitan area.

September 24-25

Conference: With funding from the Education Outreach Fund, the Office of the Committee for a Wider Audience and the Program in Black American Culture at the National Museum of American History organized a national forum for museum professionals to present and analyze innovative outreach programs that have succeeded in drawing new audiences to museums.

September 25

Film Series: The Hirshhorn Museum and Sculpture Garden launched its highly acclaimed series of independent films, animated short features, and documentaries for the 1987-88 season.

September 26

Symposium: The Smithsonian Quincentenary Program presented its first public symposium, "Americans Before Columbus: Ice Age Origins." Prominent North American scholars engaged in a lively debate focusing on the first human occupation of the Americas and on late Ice Age extinctions. The day-long event was cosponsored by the National Museum of Natural History.

September 26

Special Event: The annual activities for members of the James Smithson Society were held. Included were a morning tour of the Arthur M. Sackler Gallery and the National Museum of African Art, followed by a luncheon at the official residence of H. E. Nobuo Matsunaga, ambassador of Japan. In the evening, a formal dinner was held at the National Air and Space Museum.

September 28

Dedication Ceremony: The new Smithsonian museum complex, including the National Museum of African Art, the Arthur M. Sackler Gallery, the S. Dillon Ripley Center, and the Enid A. Haupt Garden, opened following a dedication ceremony headed by Secretary Adams; Secretary Emeritus S. Dillon Ripley; architect Jean-Paul Carlhian; Regent Anne L. Armstrong; and John R. Kinard, director of the Anacostia Museum.

September 28

Smithsonian Institution Day: A proclamation by the mayor of the District of Columbia named this day as Smithsonian Institution Day in honor of the public opening of the two new Smithsonian museums of art and the new international center.

September 28

Inaugural Exhibition: The Smithsonian's International Gallery opened its inaugural exhibition, "Generations," organized by the Smithsonian Institution Traveling Exhibition Service (SITES) and the International Center. "Generations" combined three hundred artifacts from lenders worldwide with 125 award-winning photographs, resulting in an unprecedented look at how families around the globe and through the centuries have anticipated and welcomed newborns. SITES published a companion book, *Generations: A Universal Family Album*, for distribution by Pantheon Books.

September 28

Inaugural Exhibitions: The National Museum of African Art celebrated its opening with five inaugural exhibitions: "African Art in the Cycle of Life"; "Royal Benin Art in the Collection of the National Museum of African Art"; "Patterns of Life: West African Strip-Weaving Traditions"; "The Permanent Collection of the National Museum of African Art"; and "Objects of Use." Catalogues were published for the first three exhibitions.

September 28

Inaugural Exhibitions: The Arthur M. Sackler Gallery joined the Smithsonian family as its fourteenth museum as it opened to the public with the following inaugural exhibitions: "In Praise of Ancestors: Ritual Objects from China"; "Monsters, Myths, and Minerals"; "Pavilions and Immortal Mountains: Chinese Decorative Art and Painting"; and "Nomads and Nobility: Art from the Ancient Near East."

September 29-30

Special Event: Donor, Sponsoring, Sustaining, Patron, and James Smithsonian Society Members of the Contributing Membership Program attended private viewings of the Arthur M. Sackler Gallery, the National Museum of African Art, the International Center, and the Enid A. Haupt Garden. A special reception was held in the Arts and Industries Building.

NOTE: Totals for each museum reflect the number of individual visitors to that museum. Since many visitors include more than one museum on their itinerary, or go to various museums on several consecutive days, they are counted several times. The grand total, therefore, represents the aggregate of museum visitor counts, and is higher than the actual number of individual visitors to the Smithsonian Institution.

Appendix 4

Academic, Research Training, and Internship Appointments in Fiscal Year 1987

Listed immediately below in the first section of this Appendix, under the heading, "Academic and Research Training Appointments," are Predoctoral and Postdoctoral fellows, Graduate Student fellows, Visiting Scientists or Scholars, and other special awardees and participants in special programs. This list was compiled by the Office of Fellowships and Grants. Interns, other academic appointees, and scholarly visitors are listed in the second section under the heading, "Internships and Other Appointments." These entries were submitted by the Visitor Information and Associates Reception Center. The final section in this Appendix lists academic, research training, and internship appointments submitted by bureaus, offices, and divisions of the Smithsonian Institution and may contain some duplication.

ACADEMIC AND RESEARCH TRAINING APPOINTMENTS

The Smithsonian offers, through the Office of Fellowships and Grants, research appointments to visiting scientists, scholars, and students. The appointees are provided access to the Institution's facilities, staff specialties, and reference resources. The awardees, listed in this Appendix by bureau, office, or division, began their residencies between October 1, 1986 and September 30, 1987. Predoctoral and Postdoctoral fellows, Graduate Student fellows, Visiting Scientists or Scholars, and other special awards and participants in special programs are so listed. The entries include the institution where the Fellow received or expects to receive the degree, or the home institution of the Visiting Scientist or Scholar and other special appointees. A brief description of the project to be undertaken at the Smithsonian is included where appropriate. The fellow's or visitor's Smithsonian advisor and dates of tenure are also listed.

- Frank H.L. McCormick, Predoctoral Fellow, University of Oklahoma. "Geographic Variation and Zoogeography of the Rainbow Darter, Etheostroma caeruleum," with Leslie Knapp, from July 1, 1987 to June 30, 1988.
- Thomas Allan Munroe, Postdoctoral Fellow, William and Mary College. "A Phylogenetic Study of the Flatfish Suborder, Soleoidea," with Richard Vari, from January 15, 1987 to January 14, 1988.
- Madhav Nagarkar, Postdoctoral Fellow, University of Poona. "On Asian Species of Thelotremaaceae, Their Relatives in the New World Tropics, and Cladistic Classification of the Family," with Mason Hale, from September 14, 1987 to September 13, 1988.
- Richard Terence O'Grady, Postdoctoral Fellow, University of British Columbia. "A Phylogenetic Study of the Co-evolution between Crocodylians and Some of their Nematode Gut Parasites," with W. Duane Hope, from April 1, 1987 to March 31, 1988.
- Thomas Pape, Predoctoral Fellow, University of Copenhagen. "A Systematic-Taxonomic Revision of Blaesoxopha Loew," with Wayne Mathis, from September 1, 1987 to August 31, 1988.
- Esther Peters, Visiting Scientist, University of Rhode Island. "Review of the Invertebrate Neoplasia Cases of Comparative Histopathology," with John Harshbarger, from September 1, 1987 to August 31, 1988.
- Michael D. Petraglia, Postdoctoral Fellow, University of New Mexico. "Natural Formation Processes and the Archeological Record," with Richard Potts, from September 1, 1987 to August 31, 1988.
- John James Pipoly III, Postdoctoral Fellow, City University of New York. "Phylogenetic Systematics and Biogeography of the Genus Cybianthus (Myrsinaceae)," with Vicki A. Funk, from July 1, 1987 to June 30, 1988.

- Ruth Pamela Reed, Postdoctoral Fellow, University of Miami.
"Occurrence and Characterization of Fine-grained Carbonate
Precipitates," with Ian MacIntyre, from June 1, 1987 to May 31, 1988.
- Scott Schaefer, Postdoctoral Fellow, University of Chicago. "Phyletic
Relationships of Scoloplax," with Stanley Weitzman, from
September 1, 1987 to August 31, 1988.
- Shi Xiaoying, Postdoctoral Fellow, Beijing Graduate School of Geology.
"Jurassic Brachiopod Fauna, Systematic and Paleobiogeography,"
with Richard Grant, from February 1, 1987 to January 31, 1988.
- Darrell J. Siebert, Postdoctoral Fellow, City University of New York.
"Interrelationships within the Family Cyprinidae," with
Richard Vari, from September 1, 1987 to August 31, 1988.
- Irene Silverblatt, Postdoctoral Fellow, University of Michigan.
"Andean Symbols of Colonization : The History of Santiago and
the Peruvian Mountain Gods," with William Merrill, from
August 1, 1987 to July 31, 1988.
- Claudia Sobrevilla, Postdoctoral Fellow, Harvard University.
"Phylogenetic Studies of the Subtribe Espeletiinae," with
Vicki Funk, from March 1, 1987 to February 28, 1988.
- Christopher K. Starr, Postdoctoral Fellow, University of Georgia.
"Phylogeny of Stenogastrine Wasps," with Karl V. Krombein, from
June 17, 1987 to June 16, 1988.
- Bruno Thomas, Postdoctoral Fellow, University of Paris. "Study of the
Sediments of Cores Located West of Lake Manzala in the Eastern
Nile Delta," with Daniel J. Stanley, from October 26, 1986 to
April 30, 1987.
- Debra Ann Willard, Graduate Student Fellow, University of Illinois.
"Correlation of Lycospora with Lycopod Cones : Compressions and
Anatomically Preserved Cones in Coal Balls," with William A.
DiMichele, from June 1, 1987 to August 7, 1987.

NATIONAL PORTRAIT GALLERY

- Barbara Day, Postdoctoral Fellow, University of California at Irvine.
"Political Figures in Popular Art of the Early National Period,"
with Wendy Wick Reaves, from September 1, 1987 to August 31, 1988.

NATIONAL ZOOLOGICAL PARK

Andrew Baker, Predoctoral Fellow, University of Maryland. "The Ecological and Evolutionary Basis of Group Living and Cooperative Breeding in the Golden Lion Tamarin (Leontopithecus rosalia rosalia)," with Devra Kleiman, from January 1, 1987 to December 31, 1987.

Theodore J. Grand, Senior Postdoctoral Fellow, University of California at Berkeley. "Patterns of Growth in the African Bovidae," with Richard Montali, from June 1, 1987 to March 15, 1988.

Susan M. Haig, Postdoctoral Fellow, University of North Dakota. "Population Management of Guam Rails and Micronesian Kingfishes," with Scott Derrickson, from September 1, 1987 to August 31, 1988.

Sara J. Iverson, Predoctoral Fellow, University of Maryland. "Comparative Study of Milk Liquids and Neonatal Gastric Lipid Digestion in Three Species of Pinnipeds," with Olav T. Oftedal, from February 1, 1987 to January 31, 1988.

Ann Miller, Predoctoral Fellow, Uniformed Services University of the Health Sciences. "Factors Influencing In Vitro Fertilization of the Domestic Cat," with David Wildt, from June 1, 1987 to May 31, 1988.

Sriyanie Miththapala, Graduate Student Fellow, Smith College. "Genetic Variation in Island Leopards," with John Seidensticker, from June 29, 1987 to September 4, 1987.

Michael L. Power, Predoctoral Fellow, University of California at Berkeley. "An Investigation of Food Transit Time and Digestive Efficiency in the Callitrichidae," with Benjamin Beck, from August 1, 1987 to July 31, 1988.

OFFICE OF ARCHITECTURAL HISTORY AND HISTORIC PRESERVATION

Steven McLeod Bedford, Predoctoral Fellow, Columbia University. "Photographs of Work by John Russell Pope," with Cynthia Field, from November 1, 1986 to April 30, 1987.

OFFICE OF FOLKLIFE PROGRAMS

Harihar Prasad Bhattarai, Graduate Student Fellow, University of North Carolina at Chapel Hill. "Research for the Development and Presentation of a Nepalese Folk Life Festival," with Richard Kurin, from June 1, 1987 to August 7, 1987.

Olivia Cadaval-Bosserman, Predoctoral Fellow, George Washington University. "Performance and Ethnic Identity : The Festival of American Folklife and the Washington D.C. Latino Festival," with Peter Seitel, from June 1, 1987 to May 31, 1988.

RESIDENT ASSOCIATES PROGRAM

Ruma Ahmad-Mirza, James E. Webb Fellow, Georgetown University. With Kathy Harmon, from September 1, 1987 to December 31, 1987.

SMITHSONIAN ASTROPHYSICAL OBSERVATORY

Gianluigi Bodo, Visiting Scientist, University of Torino. "Thermal Instabilities in Magnetic Flux Tubes," with Robert Rosner, from May 9, 1987 to June 7, 1987.

Joao Braga, Predoctoral Fellow, Harvard University. "Experimental Research in High Energy Astrophysics," with Stephen Murray, from October 1, 1986 to September 30, 1987.

Leonardo Bronfman, Visiting Scientist, Columbia University. "Molecular Clouds in the Galaxy, North and South," with Patrick Thaddeus, from February 2 to March 14, 1987 and from August 8 to September 30, 1987.

Patricia Carral-Davila, Predoctoral Fellow, University of California at Berkeley. "Study of the Activity in the Nuclei of 'Normal' Galaxies," with Paul Ho, James Moran, and Mark Reid, from October 1, 1986 to September 30, 1987.

Bruce Carney, Short Term Visitor, University of North Carolina. "Halo Binaries," with David Latham, from August 6, 1987 to August 20, 1987.

Tomasz Chlebowski, Visiting Scientist, Warsaw University Observatory. "The X-Ray Properties of Hot Stars; X-Ray Spectroscopy of Cyg X-1; X-Ray and Optical Observations of HL CMA," with Harvey Tananbaum, from October 1, 1986 to September 30, 1987.

- Ara Chutjian, Visiting Scientist, California Institute of Technology.
"Measuring the Absolute Cross Section for the Dielectronic Recombination Process in Triply Ionized Carbon," with John Kohl, from September 7, 1987 to September 25, 1987.
- John Cowan, Visiting Scientist, University of Oklahoma. "The Nucleosynthetic Production of Heavy Nuclei in Evolved Stars," with George Rybicki and A.G.W. Cameron, from August 1, 1987 to September 30, 1987.
- Ian Evans, Visiting Scientist, Space Telescope Science Institute.
"Computer Photoionization/Shock-modelling of Astrophysically Interesting Cases of High Density Plasmas," with John Raymond, from July 5, 1987 to July 31, 1987.
- Guido Garay, Visiting Scientist, Harvard University. "Analysis and Publication of Radio Astronomical Data," with James Moran and Patrick Thaddeus, from May 13, 1987 to June 12, 1987.
- William R.S. Garton, Visiting Scientist, York University. "The Use of Synchrontron Light for VUV Spectroscopy of Molecules such as CO," with W.H. Parkinson, from May 16, 1987 to May 27, 1987.
- Gerard Gillanders, Predoctoral Fellow, University College, Dublin.
"The Detection of Ultra-High Energy Gama Rays from Cygnus X-3 and Other Possible Sources such as Hercules X-1," with Trevor Weekes, from January 1, 1987 to August 31, 1987.
- Patrick Hartigan, Postdoctoral Fellow, University of Arizona.
"Studies of T Taurus Stars," with Irwin Shapiro, from August 1, 1987 to July 31, 1988.
- Thomas Hartquist, Visiting Scientist, Harvard University. "Modelling of Dense Molecular Photodissociation Zones and Interstellar Hydroxyl Masers," with Alex Dalgarno, from February 2, 1987 to February 28, 1987.
- Philip Judge, Visiting Scientist, Oxford University. "Calculating Model Stellar Atmospheres Based on Sulphur Atomic Data," with Eugene H. Avrett, from July 18, 1987 to August 10, 1987.
- Laurent Koechlin, Visiting Scientist, University of Paris.
"Development of Image Processing Techniques for Interference Fringe Detection," with Peter Nisenson, Wesley Traub, and Michael Shao, from November 1, 1986 to April 30, 1988.
- Lawrence Krauss, Visiting Scientist, Massachusetts Institute of Technology. "The Interface of Elementary Particle Physics and Cosmology/Astrophysics," with Alan Lightman, from November 1, 1986 to April 30, 1988.
- Ping-wai Kwok, Predoctoral Fellow, University of Arizona.
"Observational and Experimental High Energy Cosmic Gamma Rays Using Atmospheric Cherenkov Technique," with Trevor Weekes, from September 1, 1987 to August 31, 1988.

- John Laird, Short Term Visitor, University of North Carolina.
 "Derivation of Metallicities Using Low Signal-to-Noise Digital Spectra," with David Latham, from August 2, 1987 to August 11, 1987.
- Yun-gang Liu, Short Term Visitor, Oklahoma State University. "A Study on the Relationship between Chandralls and CAI's in Meteorites," with John A. Wood, from August 18, 1987 to September 14, 1987.
- Patrick K. MacKeown, Visiting Scientist, University of Hong Kong.
 "Cosmic Ray Air Shower Physics," with Irwin Shapiro, from September 1, 1987 to September 15, 1987.
- Pablo Mauas, Predoctoral Fellow, Universidad de Buenos Aires. "Study of Si I Overionization and the Influence of the CO Molecule in the Radiative Balance of Chromospheric Levels," with Eugene Avrett, from November 1, 1986 to November 30, 1988.
- Zdzislaw Musielak, Short Term Visitor, University of Gdansk. "Study of Wave Generation and Propagation in the Solar Interior and Outer Atmosphere," with Leon Golub, from July 4, 1987 to July 8, 1987.
- Paul Reynolds, Visiting Student, University College, Dublin.
 "Development of a Gamma Ray Trigger at the Whipple Observatory," with Trevor Weekes, from January 7, 1987 to April 15, 1987.
- Barbara Ryder, Postdoctoral Fellow, Princeton University.
 "Calculations of the Properties of the Distribution of Galaxies which Form Random Phase Perturbation," with Irwin Shapiro, from September 1, 1987 to August 31, 1988.
- Steven Saar, Postdoctoral Fellow, University of Colorado. "A Detailed Study of Magnetic Fields in Late-type Dwarfs," with Leon Golub, from September 1, 1987 to August 31, 1988.
- Zdenek Sekanina, Short Term Visitor, Jet Propulsion Laboratory, California. "Cometary Science in the Post Halley Era," with B.G. Marsden, from August 25, 1987 to August 28, 1987.
- Amiel Sternberg, Visiting Scientist, Columbia University. "Infrared Response of a Dense Gas to an Intense Radiation Field," with Alex Dalgarno, from February 1, 1987 to October 15, 1987.
- P. Venkatakrishnan, Visiting Scientist, Bangalore University. "Solar Magnetic Flux Tubes; Interferometry; Helioseismology," with Robert Noyes and Peter Nisenson, from October 29, 1986 to December 10, 1986.

SMITHSONIAN ENVIRONMENTAL RESEARCH CENTER

- Christopher Barkan, Postdoctoral Fellow, State University of New York at Albany. "The Effect of Social Status and Competition on Chickadee Foraging Ecology," with James Lynch, from July 1, 1987 to June 30, 1988.

Martin Posey, Visiting Scientist, University of Oregon. "The Effects of Predation by Grass Shrimp on the Composition of Benthic Communities," with Anson Hines, from August 1, 1987 to July 31, 1988.

Parke A. Rublee, Senior Postdoctoral Fellow, North Carolina State University. "The Microbial Loop in the Rhode River Estuary : Role of Microzooplankton and the Effect of Suspended Sediments on Microzooplankton Predation," with Charles Gallegos, from June 1, 1987 to August 31, 1988.

Michael Anthony Shirley, Graduate Student Fellow, North Carolina State University. "Selective Pressures Affecting Habitat Selection by Premolt Male and Prepubertal Female Blue Crabs During Ecdysis," with Anson Hines, from June 2, 1987 to August 7, 1987.

Mark Southerland, Postdoctoral Fellow, University of North Carolina. "Behavioral Ecology of Coexisting Generalist Ant Species," with James Lynch, from January 1, 1987 to June 30, 1987.

SMITHSONIAN MARINE STATION AT LINK PORT

John Kilar, Postdoctoral Fellow, Dalhousie University. "Functional Morphology of Sargassum polycertium," with Mark Littler and Diane Littler, from December 1, 1986 to November 30, 1987.

SMITHSONIAN TROPICAL RESEARCH INSTITUTE

Jaime Cavalier, Noyes Fellow, University of Cambridge. "The Cost of Growth and Maintenance of Fine-root Systems in Tropical Mountain and Lowland Rainforests," with Alan Smith, from August 15, 1987 to March 15, 1988.

Jae Chun Choe, Predoctoral Fellow, Harvard University. "Social Evolution and Mating System in Zoraptera," with William Eberhard, from October 15, 1986 to May 15, 1988.

William James Davis, Postdoctoral Fellow, University of Texas. "Study of Parental Investment Strategies in Neotropical Kingfishers," with Martin Moynihan, from December 1, 1986 to November 30, 1987.

Philip DeVries, Postdoctoral Fellow, University of Texas. "The Biology and Evolution of an Association, and Nectar Feeding in Larval Rionid Butterflies," with Donald Windsor and Steven Hubbell, from September 1, 1987 to August 31, 1988.

Theodore Robert Dudley, Postdoctoral Fellow, University of Cambridge. "Aerodynamics of Butterfly flight," with Neal Smith, from May 1, 1987 to April 30, 1988.

Andrew Green, Graduate Student Fellow, Oxford University. "Does Foraging Success Determine the Mating Success of Male Tungara Frogs?," with Stanley Rand, from July 7, 1987 to September 11, 1987.

Kevin Patrick Hogan, Postdoctoral Fellow, University of Illinois. "The Effects of Sunfleets on Growth and Survival of Tropical Tree Seedlings," with Alan Smith and Steven Hubbell, from October 1, 1986 to September 30, 1987.

David John Hughes, Postdoctoral Fellow, University of Wales. "Genetic and Environmental Correlates of Polymorphism in Marine Cheilostome Bryozoa," with J.B.C. Jackson, from June 1, 1987 to May 31, 1988.

Roberto Ibanez, Noyes Fellow, University of Connecticut. "The Reproductive Behavior and Energetics of Glass Frogs, Genus Centrolenella," with A. Stanley Rand, from May 1, 1987 to April 30, 1988.

Dominique Irvine, Postdoctoral Fellow, Stanford University. "Examination of the Regional Variation in Indigenous Resource Management by the Runa Indians of the Ecuadorian Amazon," with Olga Linares, from February 1, 1987 to January 31, 1988.

Jane Molofsky, Graduate Student Fellow, University of Illinois. "The Effect of Litterfall on Germination of Neotropical Tree Seedlings," with S. Joseph Wright, from June 6, 1987 to August 7, 1987.

Giselle Mora, Noyes Fellow, University of Florida. "Exclusive Male Parental Care in the Harvestmen Zygopachilus albomarginus (Arachnida Opiliones : Gonyleptidae)," with Donald Windsor, from July 1, 1987 to December 31, 1988.

Steven Gaines Morgan, Postdoctoral Fellow, University of Maryland. "Field and Lab Studies of Reproductive and Larval Ecology of Brachyuran Crabs," with John Christy, from December 1, 1986 to November 30, 1987.

Anthony Ranere, Senior Postdoctoral Fellow, University of California at Davis. "Environment, Human Settlement and Subsistence in the Seasonal Tropics of Central Panama : The Last 10,000 Years," with Richard G. Cooke, from September 1, 1987 to August 31, 1988.

Hugh Sweatman, Postdoctoral Fellow, MacGuire University. "Predatory Behavior of Some Coral Reef Fishes," with Ross Robertson, from March 1, 1987 to February 29, 1988.

INTERNSHIPS AND OTHER APPOINTMENTS

The Smithsonian offers internships and other appointments to visiting undergraduate and graduate students, and museum professionals. The interns—listed by bureau or office—in this Appendix began their appointments between October 1, 1986 and September 30, 1987. Holders of special awards and participants in special programs are so listed. Where possible, the institutions attended, a brief description of the project undertaken, and the duration of appointment are given for each intern.

ANACOSTIA MUSEUM

- Kim Connor, High School. Exhibits Department, assisted in the development and process of an exhibit, produced materials and displays, June 29, 1987 through August 14, 1987.
- Marion A. Gill, Bachelors Candidate, Fisk University. Design and Exhibits Departments, assisted with graphic drawings and location of vendors for "Climbing Jacob's Ladder..." exhibit; helped to schedule videos and coordinate flyer and invitation printing; helped organize a museum design office, March 3, 1987 through July 17, 1987.
- Amy Grey, Bachelors Candidate, Brown University. Education Department, researched origin of Juneteenth Day, how it is celebrated across the country, and suggested how a plan might be implemented for a celebration next summer, July 6, 1987 through August 14, 1987.
- Isabel Mendoza, Visiting Professional, Museo del Hombre. Studied exhibition production techniques as practiced at large and small museums, September 29, 1987 through August 30, 1988.
- Reynise Mann, Bachelors Candidate. Education Department, assisted professional staff, July 12, 1987 through August 15, 1987.

ARCHIVES OF AMERICAN ART

- James M. Huttlinger, Bachelors Candidate, University of Maryland. Searched archival files for exhibit-related information, June 12, 1987 through September 15, 1987.

ARTHUR M. SACKLER GALLERY AND FREER GALLERY OF ART

- Katharine D. Cheek, Bachelors Candidate, Connecticut College. Department of Design and Installation, assisted in preparation of art, graphs, copy, charts, etc. for screen printing reproductions; assisted with painting of armatures and object mounts, assisted with organizational details and clean-up, June 1, 1987 through August 15, 1987.
- Victoria M. Corbeil, Bachelors Candidate, Smith College. Assisted in cataloging American paintings, August 24, 1987 through December 31, 1987.
- Paul I. Song, Bachelors Degree, University of Wisconsin. Registrar's Office, cataloged curatorial records, researched and updated files, prepared related material for catalogs, and worked on database for the Sackler Gallery, June 1, 1987 through August 14, 1987.
- Ellen Willenbecher, Masters Candidate, George Washington University. Educa-

tion Office, worked on areas of education in cooperation with George Washington University, January 12, 1987 through May 1, 1987.

Amy L. Wright, Bachelors Degree. Assisted lighting specialist in design and installation of exhibit lighting in Sackler and Freer Galleries, unpacked and took inventory of fixtures, relamping, daily light checks, June 23, 1987 through September 28, 1987.

BUSINESS MANAGEMENT OFFICE

Michael Hicks. Museum Shops, assisted in development of displays and decorations for museum shops, June 29, 1987 through August 14, 1987.

Toni Wilkerson. Museum Shops, assisted in development of displays and decorations, June 29, 1987 through August 14, 1987.

CONSERVATION ANALYTICAL LABORATORY

Michele E. Hamill, Bachelors Degree, Oberlin College. Paper Laboratory, compiled bibliography of paper conservation-related projects; conserved Victorian folding screen and researched light bleaching of paper, June 1, 1987 through May 31, 1988.

Laura Gail Hazlett, Bachelors Degree, University of Alberta. Textile Laboratory, assisted in conservation of 19th century American flags, May 18, 1987 through July 24, 1987.

Jeffrey C. Kimball, Masters Candidate, University of London, Institute of Archaeology. Objects Laboratory, assisted with archaeological conservation of lime plaster statues from Ain Ghazal, Jordan, July 13, 1987 through September 18, 1987.

Esther Méthé, Masters Candidate, University of Alberta. Textile Laboratory, assisted with conservation of 19th-century American flags, May 18, 1987 through July 24, 1987.

Kathryn Pease, Bachelors Candidate, Converse College. Archaeometry, studied the correlation of stylistic and physical science data dealing with Maya ceramic vessels, June 1, 1987 through July 31, 1987.

Theresa Power, Masters Candidate, University of Delaware/Winterthur Museum. Objects Laboratory, assisted with conservation of George Washington statue, June 1, 1987 through July 24, 1987.

Rosemarie Selm, Bachelors Degree, student at Textile Conservation Centre, Hampton Court Palace, England. Textile Laboratory, assisted with conservation and storage of 19th century American flags, July 6, 1987 through September 4, 1987.

Deborah Schoeps, Graduate, Istituto per Arte e il Restauro, Florence, Italy. Paintings Laboratory, examined and treated Smithsonian collections, October 1, 1986 through April 30, 1987.

Jill Sigman, Bachelors Candidate, Princeton University. Textile Laboratory, assisted with conservation and storage of 19th-century American flags, July 6, 1987 through September 4 1987.

COOPER-HEWITT MUSEUM OF DESIGN AND DECORATIVE ARTS

Diana Alper, Masters Candidate, Columbia University. Library, surveyed rare book collection, June 1, 1987 through August 21, 1987.

- Yolanda Avila, Bachelors Candidate, Rutgers University. Library, maintained rare book collection, June 8, 1987 through December 31, 1987.
- Betsy Biern, Bachelors Candidate, Mount Holyoke College. Department of Textiles, assisted with collections management, January 5, 1987 through January 30, 1987.
- Leslee Browning, Bachelors Candidate, State University of New York. Programs, assisted with program administration and planning, September 16, 1987 through December 31, 1987.
- Bernd H. Dams, Bachelors Candidate, RWTH Aachen, Germany. Director's Office, performed publication research, October 31, 1986 through April 30, 1987.
- Marianne Ertberg, Museum Professional, Danish Museum of Decorative Art. Studied collections management techniques, April 2, 1987 through May 1, 1987.
- Jeanne Faton, Bachelors Degree, University of Lyon II. Department of Decorative Arts, assisted with French decorative art and furniture, October 17, 1986 through April 15, 1987.
- John Febbo, Bachelors Candidate, State University of New York at Buffalo. Exhibitions, installed exhibitions, June 8, 1987 through August 14, 1987.
- Elaine Glusac, Masters Candidate, University of Michigan. Development, performed management research June 8, 1987 through August 14, 1987.
- Margaret Goehring, Bachelors Candidate, Oberlin College. Special Events and Department of Wallcovering, planned events and maintained collections, June 8, 1987 through August 14, 1987.
- Teresa M. Heady, Masters Candidate, Fashion Institute of Technology. Department of Textiles, assisted with textile conservation, December 17, 1986 through December 31, 1987.
- Diane Kessler, Masters Candidate, University of Alberta. Department of Textiles, assisted with textile conservation, January 5, 1987 through September 30, 1987.
- Usha Kutty, Bachelors Candidate, Smith College. Programs, studied the planning and administration of programs, June 8, 1987 through August 14, 1987.
- Marv Marvin, Bachelors Candidate, Moore College of Art. Department of Textiles, assisted with collection maintenance June 1, 1987 through August 14, 1987.
- Juan Mila, Bachelors Candidate, Bennington College. Exhibitions, assisted in the preparation of the Gaudi Exhibition, January 5, 1987 through March 2, 1987.
- Beth E. Posner, Bachelors Candidate, Cornell University. Business Office, assisted with office administration, December 22, 1986 through January 31, 1987.
- Paige Roberts, Bachelors Candidate, Princeton University. Exhibitions, performed maps exhibition research, June 8, 1987 through August 21, 1987.
- Jessica Rudin, Bachelors Degree, Oberlin College. Exhibitions, performed festivals exhibition research June 8, 1987 through December 31, 1987.
- Lorna Ryan, Bachelors Candidate, Camberwell School of Art. Library, assisted with the rare books collection, June 8, 1987 through August 14, 1987.
- Ulrike Schonfeldt, Bachelors Candidate, Freie Universitat of Berlin. Department of Drawings and Prints, assisted with collections management, July 11, 1987 through September 15, 1987.
- Sofia Vecchio, Bachelors Candidate, Oberlin College. Drawings and Prints, assisted with collection maintenance and exhibition research, June 8, 1987 through July 31, 1987.
- John Willmann, Masters Candidate, City University of New York. Shop Opera-

tions, assisted with product development, January 15, 1987 through May 15, 1987.

DIRECTORATE OF INTERNATIONAL ACTIVITIES

- Douglas W. Bell, Bachelors Candidate, George Mason University. Division of Programs, conducted research for the Asian Pacific American Heritage Week exhibition, November 10, 1986 through March 10, 1987.
- Andreanna E. Kounas, Bachelors Candidate, University of Kansas. Office of Service and Protocol, updated profile of Smithsonian Institution international research activities published by the Directorate of International Activities, February 12, 1987 through May 15, 1987.
- Maggie Mak, Bachelors Candidate, Williams College. Office of Service and Protocol, compiled foreign visitor orientation project, June 15, 1987 through July 31, 1987.
- Michael E. Martin, Bachelors Candidate. Division of Programs, conducted research for tropical forest exhibition June 30, 1987 through August 3, 1987.

HIRSHHORN MUSEUM AND SCULPTURE GARDEN

- Emily L. Carroll, Bachelors Candidate, Maryland Institute, College of Art. Department of Exhibits and Design, assisted with putting up exhibitions and also assisted in the performance of other various related duties, June 8, 1987 through August 15, 1987,
- Sandra R. Donner, Foxcroft High School. Department of Education and Library, assisted professional staff in both the Education Department as well as the library, March 9, 1987 through March 27, 1987.
- Elizabeth M. Klein, Bachelors Candidate, Dartmouth College. Public Affairs Office, internship in public relations department, June 8, 1987 through August 21, 1987.
- Stefania Lucamante, Ph.D Candidate, University of Cagliari and the University of Rome. Department of Painting and Sculpture, worked on archival material, November 24, 1986 through February 20, 1987.
- Mark Murray, High School. Exhibits Office, assisted in the development and process of an exhibit; produced materials and displays, June 28, 1987 through August 14, 1987.
- Henriette Schroder, Bachelors Degree, American University. Department of Education, conducted educational research and assisted with docent training, September 21, 1987 through December 18, 1987.
- Karla Smith, High School. Exhibits Office, assisted in the development and process of an exhibit; produced materials and displays, June 29, 1987 through August 14, 1987.
- Harriet S. Stern, Bachelors Degree, Kenyon College. Office of Education, conducted educational evaluation research, June 15, 1987 through August 21, 1987.
- India Joan Swayze, High School, Madeira School. Office of Education, assisted with the docent program, September 30, 1987 through May 30, 1988.
- Melissa Welch, Bachelors Candidate, Oberlin College. Department of Painting and Sculpture, organized Armory Show papers and did curatorial research, June 8, 1987 through August 15, 1987.

JOSEPH HENRY PAPERS

- Marcela Quinones, Bachelors Candidate, Universidad de Los Andes. Summit Gardens, made census of iguana hatchlings, July 7, 1987 through October 7, 1987.
- Jorge A. Lobo Segura, Masters Degree, Universidad de Costa Rica. San Jose, studied kinship structure in social wasp colonies, April 1, 1987 through June 30, 1987.
- Jorge F. Silva, Bachelors Degree, University of Panama. Studied kingfisher's behavior at Cascajal River (Portobelo), March 26, 1987 through June 17, 1987.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

- William Breslin, Bachelors Candidate, Hobart College. American Society and Politics, assisted with research in American history and politics, January 5, 1987 through May 13, 1987.
- Pamela A. Jordan, Bachelors Candidate, Mount Holyoke College. Worked as a research assistant, December 29, 1986 through January 31, 1987.
- Betsy Martin, Masters Candidate, Middlebury College Russian. Worked as a research assistant on turn-of-century Russian philosophy, December 29, 1986 through May 31, 1987.

ACADEMIC, RESEARCH TRAINING, AND INTERNSHIP APPOINTMENTS
SUBMITTED BY BUREAUS

SMITHSONIAN ENVIRONMENTAL RESEARCH CENTER

- Chris Barkan, Postdoctoral Fellow, State University of New York. Foraging birds, with Dr. James Lynch, from June 15, 1987 through June 15, 1988.
- Peter DeFur, Visiting Scientist, George Mason University. Oxygen uptake of blue crabs during ecdysis at low salinity, with Dr. Anson Hines, from July 1, 1987 through August 20, 1988.
- Laura A. Nye, Graduate Fellow, North Carolina State University. Telemetric analysis of foraging and movement by *Callinectes sapidus* (Rathbun), with Dr. Anson Hines, from May 5, 1987 through May 4, 1988.
- Martin Posey, Postdoctoral Fellow, University of Oregon. The role of predatory shrimp in structuring an estuarine bottom community, with Dr. Anson Hines, from August 1, 1987 through July 31, 1988.
- Parke Rublee, Senior Postdoctoral Fellow, Whitman College. The microbial loop in the Rhode River estuary, role of microzooplankton and the effect of suspended sediments on microzooplankton predation, with Dr. Charles Gallegos, from June 1, 1987 through July 31, 1987.
- Michael Shirley, Graduate Fellow, North Carolina State University. Selective pressures affecting habitat selection by premolt male and pubertal female blue crabs *Callinectes sapidus* (Rathbun), with Dr. Anson H. Hines, from April 1, 1987 through November 6, 1987.
- L. David Smith, Visiting Graduate Student, University of Maryland. The ecological impact of autotomy on the blue crab, *Callinectes sapidus*, with Dr. Anson Hines, from May 1, 1987 through September 30, 1987.
- Allison Snow, Postdoctoral Fellow, University of Massachusetts. Male and female reproductive success of a woodland orchid, *Tipularia discolor*, with Dr. Dennis Whigham, from October 1, 1987 through July 31, 1988.
- Mark Southerland, Postdoctoral Fellow, University of North Carolina. Behavioral ecology of coexisting generalist ant species, with Dr. James Lynch, from January 1, 1987 through June 30, 1987.
- Timothy Spira, Visiting Scholar, Georgia Southern College. Complete research on pollen competition in *Hibiscus moschentos* (Malvaceae), with Dr. Dennis Whigham, from June 23, 1987 through September 13, 1987.
- James Stretch, Postdoctoral Fellow, University of California at Santa Barbara. Role of emergent plankton in regulating infaunal patchiness, with Dr. Anson Hines, from March 1, 1986 through March 20, 1987.
- Lisa K. Wagner, Visiting Scholar, Georgia Southern College. The reproductive success of *Poa annua*, *P. pratensis*, and *P. bulbosa* in disturbed habitats, with Dr. Dennis Whigham, from June 23, 1987 through September 13, 1987.
- Thomas G. Wolcott, Research Associate and Professor, North Carolina State University. Telemetric analysis of movement, habitat utilization and, foraging in blue crabs (*Callinectes sapidus*), with Dr. Anson Hines, from July 1987 through October 1987.

INTERNSHIP AND OTHER STUDENT APPOINTMENTS

- Lisa Balduman, B.S., State University of New York. Vine and Herb Ecology, with Dr. Dennis Whigham, from January - October 1987.
- Nancy Bretz, Volunteer Research Assistant, B.S., Mills College. The use of stable isotopes for the study of nutrient dynamics, with Dr. David Correll, from September 1986 through August 1987.
- Sybil Carrere, Volunteer Research Assistant, Ph.D. Candidate, University of California at Irvine. Estuarine ecology and physiological aspects of stress, with Dr. Anson Hines, from March 1, 1986 through March 20, 1987.
- Sarah Chamberlain, B.S., University of South Carolina. Response of brackish wetlands to elevated levels of carbon dioxide, with Dr. Bert Drake, from May - November 1987.
- Elizabeth English, B.S. Candidate, University of Virginia. Pollination ecology of wild radishes, with Dr. Allison Snow, from January - August 1987.
- Amy Fanning, B.S., Long Island University. Estuarine fish biology, with Dr. Anson Hines, from May - November 1987.
- Joanne Feldman, B.S., Huxley College. Acid atmospheric deposition and its impact upon geochemistry, with Dr. David Correll, from March - May 1987.
- Suzanne Hill, B.S. Candidate, Towson State University. Response of brackish wetlands to elevated levels of carbon dioxide, with Dr. Bert Drake, from June - August 1987.
- Mary Howe, B.A., Mount Holyoke College. Community structure and population dynamics of phytoplankton in an estuary, with Dr. Charles Gallegos, from June - November 1987.
- Darius Nassiry, B.S. Candidate, Carleton College. Response of brackish wetlands to elevated levels of carbon dioxide, with Dr. Bert Drake, from June - September 1987.
- Donald Norman, M.S. Candidate, Huxley College. Habitat utilization by migratory warblers, with Dr. James Lynch, from May - August 1987.
- Ramona O'Halloran, B.A., Swarthmore College. Habitat utilization by migratory warblers, with Dr. James Lynch, from September 1987 - January 1988.
- Michael Rogers, B.S. Candidate, North Carolina State University. Acid atmospheric deposition and its impact upon geochemistry, with Dr. David Correll, from June - August 1987.
- Michael Sacopulos, B.S. Candidate, Bowdoin College. Acid atmospheric deposition and its impact upon geochemistry, with Dr. David Correll, from June - August 1987.
- Melanie Sutton, B.S., University of California at San Diego. Chicadee foraging behavior, with Dr. Chris Barkan, from September - November 1987.
- Toni Washuta, B.S. Candidate, Evergreen State University. Community structure and population biology of benthic invertebrates in an estuary, with Dr. Anson Hines, from June - September 1987.
- Erin Watts, B.S., Town State University. Community structure and population biology of benthic invertebrates in an estuary, with Dr. Anson Hines, from August - November 1987.

SMITHSONIAN TROPICAL RESEARCH INSTITUTE

Program in Tropical Biology

Eldridge Stevens Adams III, Postdoctoral Fellowship, University of California, Berkeley. The Behavioral Ecology of Queen Number in Nasutitermes corniger (Isoptera:Termitidae), with Dr. Mary Jane West-Eberhard, from January 1, 1988 through December 31, 1988

Brian Bock, Visiting Scientist, University of Tennessee. Iguana Management Possibilities through the Study and Manipulation of Nesting, Juvenile, and Adult Iguana Habitats, with Dr. James Karr, from January 1, 1987 through June 30, 1988.

Jeffrey D. Brawn, Visiting Scientist, Northern Arizona University. Avian Population and Community Ecology in the Understory of Moist Lowland Forests, Central Panama, with Dr. James Karr, from March 15, 1987 through September 30, 1987.

Jae Chun Choe, Predoctoral Fellowship, Harvard University. Mating System and Social Evolution in Zoraptera, with Dr. William Eberhard, from October 15 to December 15, 1986, February 1 to August 15, 1987, and February 1 to May 15, 1988.

Philip James DeVries, Postdoctoral Fellowship, University of Texas. The Biology and Evolution of an Association and Nectar Feeding in Larval Riodinid Butterflies, with Drs. Donald Windsor and Stephen Hubbell, from September 1987 through September 1988.

Andrew John Green, Graduate Student Fellow, Wolfson College. The Relationship between Foraging Success and Mating Success in Male Tungara Frogs Physalaemus pustulosus, with Dr. A. Stanley Rand, from July 6 through September 21, 1987.

David John Hughes, Postdoctoral Fellow, University College of North Wales. Genetic and Environmental Correlates of Polymorphism in Marine Bryozoa, with Dr. Jeremy Jackson, from June 1, 1987 through May 31, 1988.

Rachel Levin, Postdoctoral Fellowship, Cornell University. Male and Female Reproductive Strategies in a Tropical Wren Thryothorus nigricapillus, with Dr. Neal Smith, from February 1 to July 31, 1988 and February 1 to July 31, 1989.

Jane Molofsky, Graduate Student Fellowship, University of Illinois. The Effect of Litterfall on the Germination and Early Establishment of Tropical Trees, with Dr. Joseph Wright, from June 1 through August 7, 1987.

Steven Gaines Morgan, Postdoctoral Fellow, University of Maryland. The Effect of Fish Predation on Hatching Rhythms of Brachyurans: the Tracking of a Complex Environment, with Dr. John Christy, from December 1, 1986 through December 1, 1987.

Daniel E. Morse, Regent Fellow, University of California, Santa Barbara. Environmental, Biochemical and Genetic Factors Controlling the Reproduction and Recruitment of Panamanian Reef Corals and Associated Fauna, for 12 weeks in 1987 and 12 weeks in 1988.

Christopher William Petersen, University of Arizona, Postdoctoral Fellowship. Sexual Selection and Sexual Size Dimorphism in Fishes with Paternal Care, with Dr. Ross Robertson, from September 27, 1987 through September 26, 1988.

Anthony James Ranere, Senior Postdoctoral Fellowship, Temple University. Environments, Human Settlement and Subsistence in the Seasonal Tropics of Central Panama--the last 10,000 years, with Dr. Richard Cooke, from September 1, 1987 through August 31, 1988.

Kyle Summers, Predoctoral Fellowship, University of Michigan. Reproductive Strategies in Dendrobates auratus and Dendrobates histrionicus, with Drs. A. Stanley Rand and Nancy Knowlton, from January 1 through December 31, 1988.

Short-term Fellowships in Tropical Biology

Mark Alfano, Ph.D. candidate, University of Texas at Austin. Predation and the Evolution of Anuran Advertisement Calls, with Dr. Stanley Rand, from July 1 through August 30, 1987.

Charlton Carscallen, B.S. candidate, Trent University, Canada. Faunal Analysis of Zapotal Site, with Dr. Richard Cooke, from February 1 through April 30, 1987.

Monique Glausserand, Ph.D. candidate, Yale University. Zapotal: Coastal Adaptations in Central Panama (3000 BC - 1200 BC), with Dr. Richard Cooke, from February 1 through April 30, 1987.

Jillian W. Gregg, Ph.D. candidate, University of Utah. Variation of Winged Leaf Rachises in Relation to Environment in Tropical Plants, with Dr. Egbert Leigh, from January 1 to March 31, 1988.

Anita Hayworth, Ph.D. candidate, University of California, Davis. Microclimate and Heat Budget of the High Intertidal Limpet Siphonaria gigas, with Dr. Jeremy Jackson, from November 1, 1987 through January 31, 1988.

Joshua Hayes, Ph.D. candidate, University of Texas at Austin. Investigations into the Feeding Ecology and Impact of the Corallivorous Gastropod, Coralliophila abbreviata, with Dr. Nancy Knowlton, from September 21 through December 14, 1987.

Kaoru Kitajima, Ph.D. candidate, University of Illinois. Comparative Study of Photosynthetic and Growth Characteristics of Neotropical Tree Seedlings on Barro Colorado Island, with Dr. Alan Smith, from June 4 through August 3, 1987.

Robin Manasse, Ph.D. candidate, University of California, Davis. Genetic, Anatomical and Ecological Correlates of Seed Size Variation in Crinum erubescens (Amaryllidaceae), with Dr. Joseph Wright, from June 1 to June 30, 1987.

David M. Olson, Ph.D. candidate, University of California, Davis. The Effects of Elevation on the Ant Fauna and Other Litter Organisms of Tropical Moist Forests in Panama, with Dr. Donald Windsor, from June 22 through September 4, 1987.

Stephen Pratt, B.S. candidate, Harvard College. Foraging and Recruitment Behavior in the Ponerine Genera Ectatomma and Odontomachus, with Dr. Donald Windsor, from April 11 through July 11, 1987.

Andrew Stuart Pullin, Ph.D., University of Leeds, United Kingdom. Environmental Control of Life-History Strategies in Tropical Lepidoptera, with Dr. Donald Windsor, from November 22, 1987 through January 17, 1988.

David Stern, B.S. candidate, Cornell University. The Behavior and Morphology of Male Euglossine Bees, with Dr. David Roubik, from February 1 through May 31, 1988.

David A. Wiedenfeld, Ph.D. candidate, Florida State University. Ecomorphology and Foraging Behavior of Resident and Migrant Populations of the Yellow Warbler, Dendroica petechia, with Dr. Neal Smith, from January 15 through February 27, 1987.

Exxon Fellowship & Assistantship Program

Onel Arias, Exxon Fellowship Extension, Universidad de Panamá. Evaluación Hidrográfica del Río Abudí, with Dr. James Karr, from February 16 through August 15, 1987.

Eliseo Hector Barrios, Exxon Assistantship, Zoology Institute USSR. Exclusive Male Parental Care in the Neotropical Harvestman, Zygopachylus albomarginis (Opiliones: Gonyleptidae), with Giselle Mora, from August 3, 1987 through January 3, 1988.

Rita Bethancourt, Exxon Fellowship, Universidad de Panamá. Efecto de Fertilización con P y N en la Formación de Micorrizas y Rhizobium en el Crecimiento Temprano de Acacia mangium, with Dr. Gilberto Ocaña, from August 3 through November 3, 1987.

Aura Correa, Exxon Assistantship, Universidad de Panamá. Mating System and Social Evolution in Zoroptera, with Jae Choe, from November 24, 1986 through May 8, 1987.

Eyda Luz Gomez, Exxon Assistantship, Universidad de Panamá. Biomechanics and Ecology of Flight in Butterflies, with Dr. Robert Dudley, from September 14 through December 11, 1987.

Plinio A. Gondola, Exxon Assistantship, Fundacao Universidade do Rio Grande, Brazil. Spawning Settlement and Growth in Reef Fishes, with Dr. Ross Robertson, from September 14 through October 30, 1987.

Franklin Guardia, Exxon Assistantship, Universidad de Panamá. Development of Tropical Forest Edge Vegetation and the Effect to Proximity to the Edge on Forest Structure, with Guadalupe Williams, from February 18 through March 25, 1987.

Franklin Guardia, Exxon Assistantship, Universidad de Panamá. Effect of Predators, Plant Quality and Maternal Guarding on the Reproductive Success of Acromis sparsa, with Dr. Donald Windsor, from April 27 through July 17, 1987.

Heraclio Herrera, Exxon Fellowship, Universidad de Panamá. El Uso de las Plantas en la Medicina Tradicional en el Oeste de Kuna Yala (San Blas), Panamá, with Dr. Gordon McPherson, from May 3 through November 3, 1987.

Daniel Holness, Exxon Fellowship, Universidad de Panamá. Identificación de Especies que Puedan Utilizarse en Educación Ambiental dentro del Parque Metropolitano, with Dr. James Karr and Jorge Ventocilla, from February 17 through May 17, 1987

Daniel Holness, Exxon Fellowship, Universidad de Panamá. Estimación de la Biomasa y la Productividad de Hydrilla verticillata en dos Sitios en la Isla de Barro Colorado, with Dr. Alan Smith, from August 3 through November 3, 1987.

Yolanda Jimenez, Exxon Fellowship, Universidad de Panamá. Identificación de Especies que Puedan Utilizarse en Educación Ambiental dentro del Parque Metropolitano, with Dr. James Karr and Jorge Ventocilla, from February 17 through May 17, 1987.

Yolanda Jimenez, Exxon Fellowship, Universidad de Panamá. Estudio Bacteriológico de Playas de Anidación de Lepidochelys olivacea, with Dr. Haris Lessios, from August 3 through November 3, 1987.

Jorge Lobo, Exxon Assistantship, Universidad de Costa Rica. El Parentesco y su Estructura en Colonias de Avispas Sociales, with Dr. Mary Jane West-Eberhard, from April 1 through June 30, 1987.

E. Cybele Londoño, Exxon Assistantship, Universidad de los Andes, Colombia. Interactions between Insect Herbivores and the Phenologies of Their Host Plants, with Mitch Aide, from March 1 through June 15, 1987.

Jose Luis Machado, Exxon Assistantship, Universidad de los Andes, Colombia. Patterns of Leaf Development in Tropical Species: Implications for Carbon Gain and Herbivory, with Drs. Phyllis Coley and Tom Kursar, from September 14 through December 14, 1987.

Miguel Marmolejo, Exxon Assistantship, Centro de Investigaciones de Quintana Roo, Mexico. Illustrated Flora of Seedlings of Panamanian Tropical Moist Forest, Barro Colorado Island, with Dr. Nancy Garwood, from March 15 through June 14, 1987.

Luis E. Medina, Exxon Assistantship, Universidad de Panamá. The Reproductive Behavior and Energetics of Glass Frogs, genus Centrolenella, with Roberto Ibañez, from September 1 through December 1, 1987.

Albeloel Miranda, Exxon Assistantship, Fundacao Universidade do Rio Grande, Brazil. Spawning Settlement and Growth in Reef Fishes, with Ross Robertson, from April 27 through August 21, 1987.

Marta C. Moreno, Exxon Assistantship, Universidad de Panamá. Estudio Genético en el Polimorfismo de Color en Chelymorpha alternans (Parque Soberanía, Panamá), with Dr. Donald Windsor, from July 20 through October 16, 1987.

Elizabeth Padrón, Exxon Assistantship, Universidad Central de Venezuela. Predatory Behavior of Some Reef Fishes, with Dr. Hugh Sweatman, from April 6 through October 2, 1987.

Marcela Quiñones, Exxon Assistantship, Universidad de Los Andes, Colombia. Survival of Hatchling Iguanas in the Wild, with Dr. Dagmar Werner, from July 7, 1987 through January 7, 1988.

Jorge Silva, Exxon Assistantship, Universidad de Panamá. Sex Role Reversal in Neotropical Kingfishers, with Dr. William Davis, from March 26 through June 15, 1987.

Eyda J. Timm, Exxon Fellowship, Universidad de Panamá. Estudio Bacteriológico de Playas de Anidación de Lepidochelys olivacea, with Dr. Haris Lessios, from August 3 through November 3, 1987.

Luis Wong, Exxon Fellowship, Universidad de Panamá. Isolation and Characterization of Chemical Principles from the Anal Gland of Pelamis platurus, with Dr. Ira Rubinoff, from March through August 1987.

Other Fellowship and Internship Programs

Jaime Cavellier, Noyes Predoctoral Fellowship, University of Cambridge, United Kingdom. The Cost of Growth and Maintenance of Fine Root Systems in Lowland and Montane Rainforests, with Dr. Alan Smith, from August 15, 1987 through March 15, 1988.

Rosendo Fraga, Senior Sabbatical, University of California, Santa Barbara. Host-Parasite Interactions between the Oropendola Gymnostinops montezumae and the Giant Cowbird Scaphidura oryzivora in the Postfledgling Stage, with Dr. Neal Smith, from June 1 through August 31, 1987.

Jurgen Hoth v.d. Meden, Alton Jones Internship, Universidad Nacional Autonoma de Mexico. Behavioral Studies of the Paca (Agouti paca) in Semicaptivity, with Dr. Nicholas Smythe, from September 1, 1986 through June 15, 1987.

Roberto Ibañez, Noyes Predoctoral Fellowship, University of Connecticut. The Reproductive Behavior and Energetics of Glass Frogs, Genus Centrolenella, with Dr. Stanley Rand, from May 15 through December 15, 1987.

Kizhakkedathu Mathai Kochummen, Senior Sabbatical, Forest Research Institute, Malaysia. Flora of Pasoh Research Forest, with Dr. Stephen Hubbell, from July 1, 1986 through June 30, 1987.

Giselle Mora, Noyes Predoctoral Fellowship, University of Florida. Exclusive Male Parental Care in the Harvestmen Zygopachylus albomarginis (Arachnida, Opiliones: Gonyleptidae), with Dr. Donald Windsor, from July 1 through December 31, 1987 and from July 1 through December 31, 1988.

Gustavo Rodriguez, Alton Jones Internship, Universidad Simon Bolivar, Venezuela. Monitoring of Agouti Populations in Selected Areas for Management, with Dr. Nicholas Smythe, from August 15, 1986 through December 15, 1987.

Other Visiting Scholars

Stephen T. Emlen, Short-Term Visitor, Cornell University. Social Behavior of Wattled Jacanas, with Drs. James Karr and Neal Smith, from April 1 through June 15, 1987.

Leo J. Fleishman, Short-Term Visitor, University of Texas at Austin. Prey Localization in Crocodylians, with Dr. Stanley Rand, from April 13 through April 28, 1987.

Peter Jung, Short-Term Visitor, Natural History Museum, Switzerland. Inventory of Neogene Faunas (Mollusks) in Bocas del Toro, with Dr. Jeremy Jackson, from July 31 through August 27, 1987.

Gabor Lovei, Short-Term Visitor, Plant Protection Institute, Hungary. Evaluation of Light Trap Catches, with Dr. Hindrik Wolda, from May 31 through June 22, 1987.

Stephen S. Mulkey, Short-Term Visitor, University of Missouri. Diurnal Variation in Atmospheric Drought and Schedules of Carbon Gain and Water Loss in Understory Species, with Dr. Joseph Wright, from December 14 through January 10, 1987.

Hermann H. Remmert, Short-Term Visitor, Fachbereich Biologie der Universitat, Marburg, West Germany. Patch Dynamics in Forest Ecosystems, with Dr. Hindrik Wolda, from July 5 through July 19, 1987.

Michael J. Ryan, Short-Term Visitor, University of Texas at Austin. Sexual Selection and Sound Localization in the Frog Physalaemus pustulosus, with Dr. Stanley Rand, from July 1 through July 31, 1987.

Isaac J. Schlosser, Short-Term Visitor, University of North Dakota. Land Use and Stream Ecosystems, with Dr. James Karr, from March 27 through May 3, 1987.

Leila M. Shultz, Short-Term Visitor, Utah State University. Investigations in Leaf Anatomy, with Dr. Joseph Wright, from March 23 through April 8, 1987.

John Sperry, Short-Term Visitor, University of Vermont. Water Stress Physiology of Trees, with Dr. Egbert Leigh, from February 1 through February 28, 1987.

Nellie M. Stark, Short-Term Visitor, University of Montana. The Influence of Excess Leaching on Weathering and Mycorrhizal Uptake of Nutrients, with Dr. Joseph Wright, from July 5 through July 18, 1987.

Melvin Tyree, Short-Term Visitor, University of Vermont. Water Stress Physiology of Trees, with Dr. Egbert Leigh, from February 1 through February 28, 1987.

Paul Weldon, Short-Term Visitor, Texas A & M University. The Proximate Cues Used by Pacific Snappers to Identify the Yellow-Bellied Sea Snake, with Dr. Ira Rubinoff, from June 6 through August 17, 1987.

Walter Wilczynski, Short-Term Visitor, University of Texas at Austin. Behavioral and Neural Mechanisms by which Neotropical Frogs Organize Themselves within a Breeding Chorus, with Dr. Stanley Rand, from June 23 through July 14, 1987.

Truman P. Young, Short-Term Visitor, University of Miami. Investigations of Canopy Shapes, with Dr. Stephen Hubbell, from February 1 through March 2, 1987.

Volunteers

James Robert Duran, worked on scanning the literature in the STRI Library, from October 1986 through September 1987.

Sarah Flick, worked on the causes and consequences of rarity and distributions of certain tree species, with Dr. Stephen Hubbell, from January through May 1987.

Joseph P. Garofalo, worked as electronics technician with Dr. Haris Lessios, from August 31 through September 30, 1987.

Corina S. Hinkle, worked on reviewing the literature in the STRI Library, from October 1986 through September 1987.

Mary Ragoza, worked on a remapping of trails and streams in the Forest Dynamics Plot, with Dr. Stephen Hubbell, during April 1987.

John Reese, worked on an assessment of flowering conditions of Ceiba pentandra and Cavanalesia planifolia, with Dr. Stephen Hubbell, during February 1987.

Bob Stamper, worked on a detailed map of seedlings and saplings of an endemic shrub with a clumped distribution, with Dr. Stephen Hubbell, during August 1987.

Francisco Ulloa, worked on the diving behavior of the yellow - bellied sea snake, with Dr. Ira Rubinoff, from April through June 1987.

Deborah Wallace Dupuy, worked on the Panama bibliography in the STRI Library, from December 1986 through September 1987.

Carolyn White, worked general duties in the STRI Library, from June through August 1987.

Clarita A. S. Wright, worked on the Panama bibliography in the STRI Library, from October 1986 through September 1987.

ARTHUR M. SACKLER GALLERY AND FREER GALLERY OF ART

- Michael Brand, Sackler Fellow. Visiting Scholar, Harvard University. "Garden, City and Empire: The Historical Geography of Mughal Lahore," with Milo C. Beach from June 1, 1987, through September 30, 1987.
- Cao Yin, Sackler Fellow. Visiting Scholar, Beijing University. "All Aspects of Museum Operations," with staff members of the Freer Gallery of Art and the Arthur M. Sackler Gallery from September 30, 1987 through June 30, 1988.
- Mathew Kercher, Smithsonian Fellow. Ph.D. Candidate, Princeton University. "Calligraphy of Pa-ta Shan-jen (1626-1705), with Dr. Shen C. Y. Fu from September 21, 1987, through September 20, 1988.
- Ingrid Larsen, Freer Fellow. Ph.D. Candidate, University of Michigan. "Huang Shen, Qing Dynasty Painters Known as Yangzhou Eccentrics," with Dr. Shen C. Y. Fu from January 12, 1987, through May 30, 1987.
- John Siewert, Smithsonian Fellow. Ph.D. Candidate, University of Michigan. "The Nocturnes of James McNeill Whistler," with Dr. Linda Merrill from September 1, 1987, through August 31, 1988.
- Song Xiangguang, Sackler Fellow. Visiting Scholar, Beijing University. "All Aspects of Museum Operations," with staff members of the Freer Gallery of Art and the Arthur M. Sackler Gallery from September 30, 1987 through June 30, 1988.
- Jan Stuart, Smithsonian Fellow. Visiting Scholar, Princeton University. "Researching and Cataloging the 16th-Century Zhe School of Paintings," with Dr. Shen C. Y. Fu from April 15, 1987, through April 14, 1988.
- Wheeler Thackston, Jr., Rockefeller Fellow. Visiting Scholar, Harvard University. "Princely Art in 15th-Century Iran: The House of Timur," with Dr. Glenn Lowry from June 9, 1987, through September 30, 1987.
- Som P. Verma, Fulbright Fellow. Visiting Scholar, Aligarh Muslim University. "The Study of Mughal Paintings and Other Related Indian Schools," with Dr. Milo C. Beach from July 1, 1987, through November 15, 1987.

CONSERVATION ANALYTICAL LABORATORY

Regents Fellow

W.D. Kingery, Ph.D., Regents Fellow, Artifact Interpretation and the Rise of Pictorial Traditions in the Ceramics of 5th c. Greece, 12th c. Islam, 15th c. Italy and the early Qing Dynasty of China: Models for the Interaction of Society and Technology, from September 1987 through September 1988.

Fellows

Nancy Benco, Ph.D., Postdoctoral Fellow in Material Analysis, SUNY at Binghamton, NY. Composition Technologist Variability: An approach to the study of pottery specialization in ancient society, with Jacqueline S. Olin and M. James Blackman, from February 1986 through January 1987.

Robert Ehrenreich, Ph.D., Postdoctoral Fellow in Materials Analysis, Oxford University, United Kingdom, The State of iron technology in Roman dominated Britain, with Jacqueline S. Olin and Roy S. Clarke, Jr., for October 1, 1985 through December 31, 1986.

Rosemary Gianno, Ph.D., Postdoctoral Fellow in Materials Analysis, Yale University, New Haven, CT. The Analysis and Identification of Southeast Asian Resins, with David von Ende, from February 1, 1986 through January 31, 1987.

Hector Neff, Ph.D., Postdoctoral Fellow in Materials Analysis. University of California at Santa Barbara. Application of multivariate pattern-recognition and statistical procedures to ceramic interpretation, with Dr. Ronald Bishop and Dr. Frederick J. Bove, from November 1986 through April 1988.

Interns

Ann Baulton, Postgraduate Conservation Intern, State University College at Buffalo, NY, Art Conservation Department. Special projects in Objects Conservation, with Carol A. Grissom, from October 1, 1986, through September 30, 1987.

Lynn Brostoff, Masters degree, New York University. Paper Conservation, 3rd year internship, Research and Treatment, with Tim Vitale, October 1, 1986 through September 16, 1987.

Michelle E. Hamill, Bachelors Degree, Oberlin College. Paper Conservation Laboratory, compiled bibliography of paper conservation-related project, with Tim Vitale, also worked on the conservation of a Victorian folding screen and a science project on the effects of aqueous light bleaching on paper, June 1, 1987 through August 21, 1987: Paper Laboratory, worked on paper conservation, with Dianne van der Reyden, September 1, 1987 through May 31, 1988.

Laura Hazlett, Summer Intern, Textile Conservation Laboratory. May-July, 1987.

Jeffrey Kimball, Conservation Intern, Institute of Archaeology, University of London, Work and Study in Objects Conservation, with Carol A. Grissom, from July 13 through September 18, 1987.

Ingrid Lucena, Conservator, National Gallery of Art, Caracas, Venezuela. Paintings Conservation. Examination and Treatment of Smithsonian Collections, with Roland H. Cunningham, from September 25, 1986 through September 15, 1987.

Esther Méthé, Summer Intern, Textile Conservation Laboratory. May-July, 1987.

Theresa Power, Conservation Intern, Art Conservation Program, University of Delaware/Winterthur Museum, Work and Study in Objects Conservation, with Carol A. Grissom, June 1 through July 24, 1987.

Deborah Schceps, Postgraduate Conservation Intern. Paintings Conservation, Istituto per Arte e il Restauro, Florence, Italy. Examination and Treatment of Smithsonian Collections, with Roland H. Cunningham, from September 15, 1986 through April 30, 1987.

READING IS FUNDAMENTAL, INC.

RIF Newsletter. Published three times a year, the Newsletter reports on RIF activities nationwide. A technical assistance insert, addressing local projects' requests for information on how to motivate youngsters to read, is included in Newsletters sent to RIF projects. The Newsletter reaches 24,000 people throughout the United States and offshore territories.

The RIF Guide to Encouraging Young Readers (Doubleday, 1987). A sourcebook of activities, children's book suggestions, and resources for parents.

Reading Is Fundamental. A newly published brochure describing the organization and its accomplishments.

"Parent Guide" Brochures. A series of seven brochures on the topics "Choosing Good Books for Your Children," "TV and Reading," "Reading Aloud to Your Children," "Upbeat and Offbeat Activities to Encourage Reading," "Teenagers and Reading," "Children Who Can Read, But Don't...", "Encouraging Soon-To-Be Readers."

Books to Grow On: A Parent's Guide to Encouraging Young Readers. A resource for parents of children from infancy to age eleven.

The RIF Book of Ideas. A series of booklets on fundraising, selecting books for young people, and motivating children to read.

I Want You. A brochure to assist RIF projects in recruiting and training volunteers.

Reading Is Fun! Tips for Parents. A booklet offering suggestions on how to encourage children up to the age of eight to read.

Children's Bookshelf. An annotated list of 106 books for children up to the age of eleven.

Profiles. Descriptions of the publishers and distributors that serve RIF projects. The Profiles list special discounts and services offered by each supplier and are distributed annually to all projects.

Donors to the Smithsonian Institution in Fiscal Year 1987

The Board of Regents and the Secretary of the Smithsonian Institution join with the entire staff in thanking all of the Institution's friends for their generous financial support and for their gifts to the collections. If perchance the name of any donor has been omitted from the following list, it is an inadvertence and in no way diminishes the Institution's gratitude. Many gifts were received from donors who prefer to remain anonymous; the Smithsonian wishes to thank them for their generosity.

Contributing Members of the Smithsonian Institution in Fiscal Year 1987

SMITHSONIAN CONTRIBUTING MEMBERS

The Contributing Members of the Smithsonian National Associates support the Institution through generous annual contributions. Such participation, in conjunction with special gifts from the members, enables the Institution to pursue specific projects and broader research, acquisition, preservation, and education efforts which might otherwise not be possible.

The Smithsonian Institution gratefully acknowledges the loyal and thoughtful support of the Contributing Membership. Sponsoring Members (\$300) and Sustaining Members (\$600) are listed below.
